

## COLORADO 3

This double garage is 5.75m x 5.1m / 19ft x 16.5ft and is a perfect and secure place to store your vehicles or to use as a workshop. Possibly more of an upmarket barn than a timber garage, the Colorado 3 has an internal space of 28.4 sqm. That's enough for two cars, and quite a bit else besides - from your collection of unused sports equipment to your pet guinea pigs cage - whilst still providing enough room for some workstations at the back to keep tools and equipment on.
